

ANSELM NANCY

FRONTEND / FULL-STACK ENGINEER

Aba, Abia State, Nigeria • +234 9075048024 • anselmncancy28@gmail.com
[GitHub Profile](#) • [Live Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented Software Engineer specializing in building scalable, responsive, and secure web applications. Proficient in modern frontend architectures (React, JavaScript, CSS3) and backend integrations, with a foundational background in cybersecurity and ethical hacking. Adept at implementing secure coding practices, modular component design, and optimized deployment pipelines to deliver seamless digital experiences.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3, Python, SQL
Frameworks & Libraries:	React.js, Node.js
Tools & Platforms:	Git, GitHub, VS Code, Bash, Vercel, MongoDB
Domain Knowledge:	Full-Stack Development, Component-Based Architecture, Responsive Web Design
Security Domain:	Cyber Security Analysis, Ethical Hacking, Secure Coding Standards

PROJECT EXPERIENCE

Construction Company Web Application

[Live Demo](#) | [Codebase](#)

- Designed and engineered a fully responsive corporate web application using **React.js** and **CSS3**, optimizing cross-device rendering layouts and visual assets.
- Architected a modular **component-based framework** to enforce strict clean-code separation, cutting down redundant code and easing feature integration.
- Integrated interactive customer-facing UI components using modern **JavaScript** and automated secure email messaging logic via **EmailJS**.
- Managed source control through **Git** and executed seamless production continuous deployments using **Vercel**.

Collaboration Platform Clone (Refresh Clone)

[Codebase](#)

- Built an interactive web clone of a collaborative platform using **React.js** to master complex state management and multi-user UI layouts.
- Implemented strict front-end data validation protocols to secure input fields against common client-side injection vulnerabilities.
- Utilized **VS Code** and a custom **Bash terminal environment** to construct automated shell scripts, streamlining asset management and local environment workflows.

Static Corporate Landing Page

Codebase

- Developed a high-performance, minimalist landing page emphasizing modern UI/UX design patterns, semantic HTML5, and fluid CSS responsive breakpoints.
- Enforced web accessibility standards (WCAG) and optimized asset delivery to ensure rapid page load times and search engine discoverability.

EDUCATION

West African Senior School Certificate (WASSCE)

Graduated July 2023

Nigeria — High School Diploma Graduate

HONORS & ACHIEVEMENTS

- **Secure Engineering Mindset:** Successfully applied defensive programming and cybersecurity principles across personal entrepreneurial applications, achieving functional security alongside performance.
- **Technical Agility:** Concurrently managed technical self-education milestones alongside launching live production-ready code configurations on the cloud infrastructure.
